

A close-up portrait of a young woman with brown hair, smiling and touching her face with her hand. The image is overlaid with dynamic splashes of white milk and blue water, suggesting freshness and hydration. The background is plain white.

ALQUIMIA  
TREATMENT

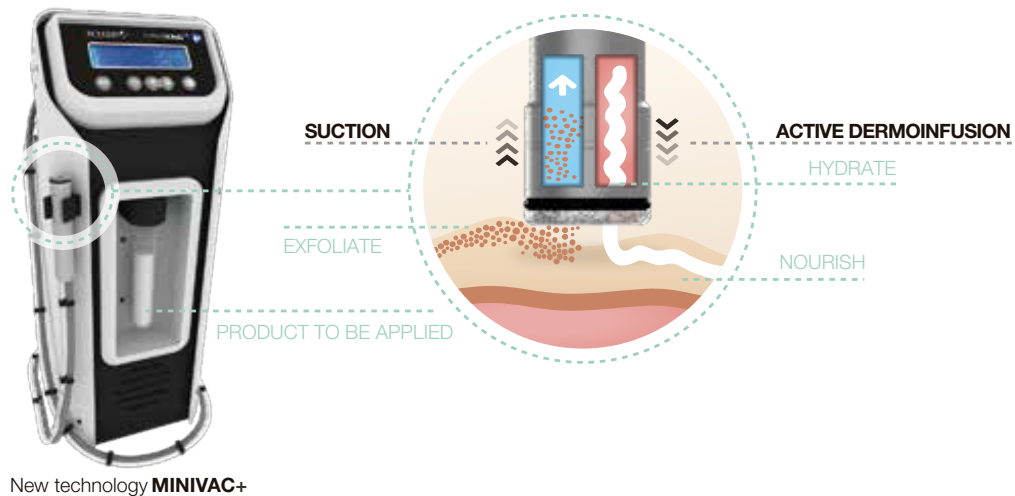

New Diamond Tips with nutrient infusion.  
Revolutionary skin treatment.

## CLEANING + HYDRATING + NOURISHING.

Alquimia is a highly innovative treatment that allows a wide range of nutrient carriers and nutrients to be applied during the cleaning and hydrating with diamond tips.

### Active Dermoinfusion: The latest innovation in beauty treatments.

This advanced technology system accepts not only aqueous solutions but a great number of different density products such as plasma, gels and emulsions that can transport a largervariety of nutrients for the best absorption to deep layers of skin.

### Numerous Treatments.

The new MINIVAC+ model offers aesthetic professionals the possibility of using their own products during treatment. An unlimited combination of products gives you the opportunity to plan medium to long term treatments taking into account various stages of the beauty process.

### Young, radiant and healthy skin.

Alquimia is a non-invasive treatment that replenishes nutrients, softens thin lines and wrinkles, refines pores, reduces signs of aging and protects skin from environmental damage while eliminating impurities.
